

A cross-sectional view of a multi-layered structure. It features a central gap (5) between two main components. Each component consists of a top layer (1) with small dots, a middle layer (7) with diagonal hatching, and a bottom layer (2) with horizontal hatching. The entire structure is supported by a base (9). A label (4) points to the top surface of the left component, and a label (7) points to the middle layer of the right component.
